

## Rising Star Quilt Guild Mystery Quilt 2020 - 21

### Clue #5

This is the last set of clues! We complete block 2 first and then alternate blocks 1 & 2 to complete the design. You have probably already guessed how this block comes together to make a different 8 ½ " block.

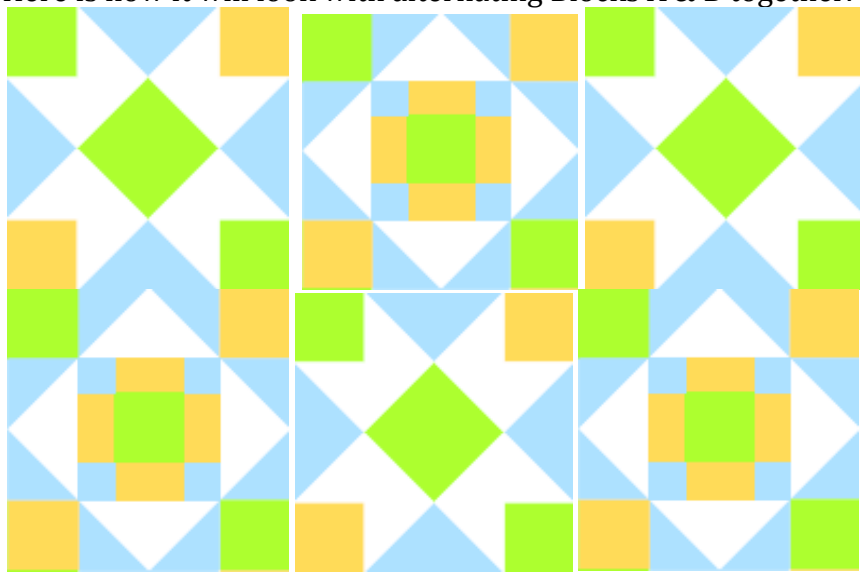

### Completing Block 2

Using the remaining Flying Geese you made for Block 2, sew them onto opposite sides of the center block you made in Clue #1. Make sure the point of the Flying Geese is facing out! Using 2 of the strip blocks you made last month (a flying geese with 2 ½" squares on either end) and one of the center + flying geese strip you just made, sew 3 rows together to form the square block. Refer to the picture below if needed. Finished block is **8 ½" X 8 ½"**  
You will have **4 blocks for small quilt**; 7 for rectangular; and 12 for the large quilt.

### Putting it all together

Starting with Block 1, alternate blocks in the row and the column. Row 1: B1,B2,B1; Row 2: B2, B1, B2, etc.

Here is how it will look with alternating Blocks A & B together.

Add one or more borders as you wish to complete the quilt top. Choose a backing, sandwich, quilt, and bind to finish it off. Send pictures or bring to the next meeting so we can see your result!
