

Rising Star Quilters February 2014 Block of the Month

Please return your finished block(s) at the [March 25th meeting](#).

The Anvil Block

This month's block is a variation on the Anvil Block.

Finished Block Size: 12 inches (Unfinished size 12.5 inches)

Instructions:

This month's kit includes the 6.5 inch center square. Each participant provides the fabric for the half-square triangles and the corner squares. Please use a light background fabric.

Please make ten 3.5 inch half-square triangles in fabric(s) that coordinate with the center square fabric, and two 3.5 inch corner squares from the background fabric.

Please construct the final block following the block diagram above. Please pay close attention to the layout of the triangles.

Here's a link to a tutorial for this Anvil Block by Victoria Findlay Wolfe.

(Victoria's block uses "made fabric", fabric constructed by sewing scrap pieces together.

Using Victoria's "made fabric" technique is not a requirement for this month's block, though it is a great way to use your scraps!)
